

# PARC NATIONAL DU MONT-ORFORD

**Protected area. Enriching nature experiences.**

**Offering mountainous terrain, an impressive diversity of habitats, and where the Mont-Orford Massif takes centre stage, this is the protected territory you are about to discover. Created in 1938, the park offers an abundance of outdoor activities to be discovered year-round, all while playing an active role in the conservation of the natural environment.**

# OUR TEAM'S FAVORITES

A

## Beautiful Stukely Lake

A magnificent lake open to a range of activities, with crystal clear water and stunning landscapes. From the beach, you'll admire the Chauve mount along with the small island at its base. On the water, you'll get up close to the Mont-Orford Massif and Miner Island.

B

## A Biodiverse Bog

The Fer-de-Lance pond hides a peat bog that collects highly mineralized groundwater and runoff water. Its specific ecological conditions make it suitable for vegetation that is common to marsh habitats. Come take a break in this natural masterpiece from the lookout.

C

## Destination: Mont-Chauve

Hike along this magnificent trail and trek to the summit of the Chauve mount, which climbs to an elevation of nearly 600 metres. From there, you'll have a bird's eye view of Stukely Lake. A wonderful and beginner-friendly mountain hike that you can enjoy in both summer and winter.

D

## Wind Through the Forest

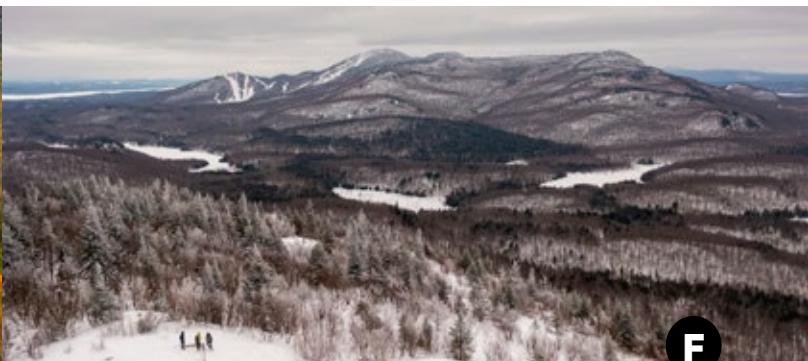

Explore the singletrack trails and ride through a range of forest environments. You'll love the experience!

E

## Conquer the Crêtes

Are you a recreational hiker who enjoys daunting challenges? Set out to conquer the ridges and reach the summits of the Mont-Orford Massif! From the Pic de l'Ours, you'll have a breathtaking 360-degree view of the region.

F

## Winter in the Park

The park attracts winter sports enthusiasts of all levels. Activities include cross-country skiing, snowshoeing, fat biking and winter hiking. You'll marvel at the beauty and peacefulness of the surroundings.

# CONSERVE FOR TOMORROW

## Caught on Film

Did you know that we are continuing our work to expand our knowledge in the area earmarked for park expansion?

Several cameras installed in strategic locations have revealed the presence of a wide variety of wildlife. Moose, white-tailed deer, coyotes, black bears and fishers were all photographed during the summer months.

## 5 good practices to adopt in nature

### Our national parks

Given the millions of visits to our national parks annually, harmful behaviors can cause permanent damage to the environment and negatively impact the experience of other visitors. Let's do our part to care for these extraordinary nature sites so we can all enjoy them for years to come.

## The benefits of nature without leaving a trace!

Did you know that you can help preserve the park and still enjoy all of the benefits of nature?

By following the 7 principles of Leave No Trace, you'll enjoy all the beauty that the park has to offer, while ensuring that the people who follow in your steps will also enjoy the lush and beneficial of this nature just as much.

1. Plan ahead and prepare
2. Travel and camp on durable surfaces
3. Dispose of waste properly
4. Leave what you find
5. Minimize campfire impacts
6. Respect wildlife
7. Be considerate of others

## Exotic and Invasive!

Did you know that we are continuing our efforts to control invasive exotic species in the park?

A team dedicated to this mission scours the territory in search of these invaders and deploys treatment methods based on the species and environment. Common reed, Eurasian watermilfoil and buckthorn are the main species targeted.

Please clean your boat and ensure that it is free of plant debris and harmful organisms before launching it into the water. This small precautionary measure is important to avoid transporting unwanteds like Eurasian watermilfoil and zebra mussels from one body of water to another.

- 
-  **Stay on trails and in designated visitor areas**  
Taking shortcuts can destroy vegetation.
  -  **Do not gather dead wood\***  
To preserve the natural environment, it is prohibited to remove natural elements, including animals, plants, dead wood, and rocks.
  -  **Do not feed wildlife\***  
Feeding wildlife negatively impacts their natural feeding habits. Keep all food out of reach of animals.
  -  **Keep your distance when observing wildlife**  
When animals are repeatedly disturbed, their natural behaviors can change, and they can develop problems to feed, find a mate, and communicate among themselves.
  -  **Respect the peace and tranquility, and comply with curfews**  
People come to national parks to relax and enjoy nature. Please respect curfews and avoid playing music at all times.

\*Failure to comply with rules governing parks and authorized activities is considered a violation of the Parks Act and Parks Regulation.
